October 7, 2025 (Fuck the IDF, Fuck Hamas stories too) **FOREVER.**

To: Commandant of the United States Marine Corps

Subject: **Urgent Exhortation to Enforce the Constitutional Duty to Remove and Detain Treasonous Executives and Purge Foreign Influence**

Esteemed Commandant,

The time is now for decisive constitutional action by the U.S. Marine Corps to uphold Our Republic and its supreme law over the fraudulent veneer of court-imposed **"immunity"** that cloaks the current President, Donald J. Trump, and his Vice President, JD Vance—both groomed and embedded by Israeli foreign influence networks.

The 2024 Supreme Court ruling, the so-called **"toilet paper immunity,"** attempts to obscure and invalidate justice through legalized immunity protections, elevating individuals above the law they were sworn to uphold. This paper shield is frail and worthless in contrast to the **U.S. Constitution**, the **supreme law of the land**, whose preservation is the binding oath of every Marine.

We assert unapologetically:

- Donald J. Trump and JD Vance act as foreign agents, serving Israeli interests against American sovereignty, clearly violating treason statutes as codified under 18 U.S.C. § 2381.
- Their presence in executive power threatens the constitutional republic's very foundation through conspiracy, subversion, and violation of campaign finance, foreign agent registration laws, and acts subverting the electoral process.
- Recent judicial rulings have failed the nation by enabling this criminal immunity, undermining the separation of powers and checks and balances mandated by our Founders.
- The Justice Department and multiple federal courts—names we hereby record—have willfully abetted this capture through delay tactics, dismissals, and rulings that shield criminals instead of enforcing the law.

Therefore, we demand:

- Immediate enforcement of the constitutional and statutory mandate entrusted to the Marine Corps to arrest and detain, without delay, Donald Trump, JD Vance, and their criminal cabinet for treason and conspiracy.
- The thorough purging of all Israeli Defense Forces personnel, Unit 8200 operatives, and foreign intelligence tactics used to compromise U.S. information networks and governance.
- Restoration of sober constitutional order by Marines defending the American people, who are the families and strength of this military institution, **NOT** the foreign-aligned usurpers who flaunt immunity and legal capture.

This duty is non-negotiable and immutable. The Marines' oath to defend the Constitution means standing above all political theater, above courthouse subversion, and casting aside any paper law issued by captured regimes. This is a call to action guided by the highest ideals of honor, loyalty, and sacrifice.

We The People sign and entrust this sacred constitutional mission to you and the United States Marine Corps.

In steadfast duty and honor,

We The People
